

NEBRASKA BUSINESS AVIATION ASSOCIATION 2016 Membership Application

The Nebraska Business Aviation Association works to enhance and promote the livelihood and safety of its members – pilots, flight attendants, schedulers, maintenance and support personnel within business aviation flight operations, as well as business aviation support related companies. By speaking as a unified voice, on behalf of business aviation, to organizations such as the Nebraska Aeronautics Commission, National Business Aviation Association, and the Federal Aviation Administration, as well as State and Federal political representatives the association is able to help present the regional business aviation position on matters affecting the industry.

MEMBER BENEFITS: To fulfill its objectives, the organization offers a variety of services and discounts to its members. The NeBAA hosts regularly scheduled meetings that promote the professional development of its members by keeping them informed about safety, regulations, new products and airport issues. These meetings often feature speakers from the FAA, ATC, aircraft manufacturers, flight planning agencies, educators, etc. These meetings and lunches, as well as the annual golf tournament, provide networking opportunities and a means of becoming better acquainted with fellow industry professionals. In addition, you will receive member access to the NeBAA website at www.nebaa.org for the duration of your membership.

NOTE: 2016 Memberships are valid January 1st through December 31st, 2016
